

field trip 10-12-12

Dear Redbud Center,

Thank you for having us come and thank you for teaching us about the Colorado river. This is what I learned, I learned what Point source and nonpoint source means. I also learned that the average family uses about 410 gallons of water each day, "that's a lot of water"! And I didn't even know what a water shed was! I had a lot of fun at the Redbud center, and I hope we have another field trip there again.

Sincerely,
Lily

From,
Lily
